

LIST OF TABLES

Table	Page
2-1 Fish Group Species and Associated NCCP Habitats	2-5
2-2 Species and FESA Designated Critical Habitats Evaluated in the Multi-Species Conservation Strategy	Follows 2-10
3-1 Prescriptions for Species with “R” and “r” Goals	Follows 3-20
3-2 Goals and Prescriptions for NCCP Communities	Follows 3-20
4-1 Summary Programmatic Action Outcomes	Follows 4-20
4-2 Impact Mechanisms Potentially Associated with Summary Outcomes	Follows 4-20
4-3 Existing Extent (in Acres) of NCCP Habitats Derived from the California Central Valley Wetlands and Riparian Geographic Information Systems	Follows 4-20
4-4 Existing Extent (in Acres) of NCCP Habitats Derived from the California Gap Analysis Landcover Geographic Information Systems	Follows 4-20
4-5 Evaluated Species for which Direct Mortality as a Result of Implementing CALFED Actions is Prohibited as a Condition of the Multi-Species Conservation Strategy	Follows 4-20
4-6 Studies and Surveys for “R” and “r” Goal Species	Follows 4-20
4-7 Summary Effect of Implementing CALFED Actions and Conservation Measures on NCCP Communities	Follows 4-20
4-8 Summary of Ecosystem Restoration Program Habitat Restoration and Enhancement Targets	Follows 4-20
4-9 Comparison of Existing NCCP Habitat Area and Ecosystem Restoration Program Target Restoration Habitat Area for the Delta Ecological Management Zone and Ecological Management Units	Follows 4-20
4-10 Potential for Adverse Effects of CALFED Actions on Evaluated Species ..	Follows 4-20
4-11 Summary of Effects of CALFED Actions and Conservation Measures on Evaluated Species	Follows 4-20

4-12	Summary Effect of Implementing CALFED Actions with Conservation Measures on Evaluated Species with “R” and “r” Goals	Follows 4-20
